

All PS state reports are being updated and installed for the time frame needed for the various collections needed for FY15.

New format/icon for some of the reports. These produce a zip file with multiple files for you to use.

 HQT Teacher Sheet

 Pre-ID Extract - Multiple File

Dates to use: We suggest that you use a start date equal to that of your earliest summer WD student (if you do not know that date, you can use 07/01/2014 and an end date of the current date when you run your files (or no more than 45 days past the current date for the end date) If on any of the state reports you see October count week – continue to fill these in – use 10/6/2014 and 10/10/2014. If you see test dates, continue to enter these as well – same as you have in past years reporting – simply make sure it is now 2015.

GE and FE dates are 6-1-2014 – 05/31/2015

Manifests: Each manifest in the data collector will let you know what record types are required for the collections. Please refer here so you know which state reports you need to run from within PS. For example – from the Collection Request tab in the EMIS-R data collector here is what is needed for the current SCR manifest:

Student Cross Reference (FY15)

Collection required for all EMIS reporting entities. Source file(s) for GI, FS, and FL student record types, labeled with the "S" reporting period, must be uploaded in EMIS manual format through the Data Collector Data Sources tab. Collection and submission will be automatic, but can be run on-demand as needed. Level 1 reports should be reviewed to identify data with errors that was excluded in the automatic submission. Updated student admission and withdrawal data must be submitted via this collection request within 30 days of the change in student status.

Reminders:

14G – this manifest is set to close on November 14, 2014. Checklist is posted on the wiki
Check your web reports and SDC reports.

Continue to work on your calendars for when ODE re-opens the Calendar manifest

13N/14N TGRG supplemental manifests are set to close on October 10, 2014

December Child Count date is now October 31 and not December 1.

FY15 PS Highlights:

FN Tab

TGRG diagnostic fields EX will now be an option for Math and Writing (not currently in PS)

4th grade and above should be reported with ** in the three diagnostic fields, remember you cannot use student field value group function to update **, in this case you can simply use the clear field value option to take the old code out. Once cleared out – the FN report will extract the ** for these students.

It is after September 30 so at this time your students should have been assessed in reading and the reading diagnostic field should be updated accordingly for FY15. If you also tested in math and writing update accordingly as well, or report RN now and then for the end of the year you'll update those two to the correct values.

FLICS IRN is available for use for the Community Schools using PS.

DN/DL Records

For events that happened before the first day on your calendar or after the last day on your calendar, you can report these now on either the DN tab if district wide or at the building level if it only applies to specific buildings.

C_PRFLMEET (Professional Teacher Meeting date, full or partial day – number of hours)		New
Date	Hours	
No Records Found		

C_PTCONFRC (Parent/Teacher Conference date, full or partial day – number of hours)		New
Date	Hours	
No Records Found		

The C_STUEEPOL attribute for Community Schools only when the LEA has adopted an ODE-approved Early Entrance Student Acceleration Policy for Advanced Learners. (not currently in PS)

You can now sort the DL records by columns.

FD Tab

New Local Attendance Pattern field, this field is used in conjunction with the Local District Attendance Pattern Tab. Directions are on the wiki for updating this field if you used ****. This field will be used to calculate the FS attendance, so don't forget to update this new field for your students.

Special Programs (GE and GQ records)

GQ records

215xxx program codes are no longer required to be reported. In PS – you need to update your Special Program at the district level to make them no longer reported. This will prevent the 215xxx records from being extracted when you run your (GQ) Student Program state report.

Setting	Value
Program name (no commas)	215001 - Adapted Physical Education
Qualifies as a special education program	<input type="checkbox"/>
Include in Quick Lookup	<input checked="" type="checkbox"/>
Ohio State Report Information	
Program ID (Leave blank to exclude program from the GQ Student Program Record)	215001
Include this program code in EMIS Student Program Report	<input type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/> <input checked="" type="checkbox"/> All Oct. Dec. Feb. June
No longer used	<input checked="" type="checkbox"/>

GE Records

New outcomes for PSTC events – PSNR and PSPD

Program	PSTC
Ohio State Information	
Disability	
IEP Date	
Date Type	(PSTC) Preschool Transition Conference Date
Outcome ID	** Not Applicable **
Non-compliance ID	(PSPD) Parental delay of subsequent required activities requested (PSNR) Parental delay not requested
Outcome Beginning Date	

FIEP is being eliminated – districts should use RIEP. You can also mark this Special Program as no longer used – same as your 215xxx program codes above.

NIEP – a new event will be created for students without an IEP in place (not yet in PS). If you intend to use this event – you will need to add in this event into the Special Program at the district level.

To be used when and IEP is expired and a new one is not yet in place or when student had an IEP in a prior year and that event was not reported in the prior year or when student who transfer into your district and before the reasonable time to completed the TIEP/RIEP event.

PS Future Updates Coming

10/10 Release

Subject Codes - 050103, 050153

Diagnostic Results - EX added to Math and Writing Diagnostics

GI - Issue with duplicate records

Upcoming Releases

CRDC 1 and 2 - updates
