

Upgrade Schedule

PowerSchool Version 7.10.1.0 Scheduled Upgrades

Upgrades will begin on February 20th at 4:00 PM. We anticipate each system upgrade to require 30-40 minutes of PowerSchool downtime with the upgrades scheduled in 1 hour time frames. Please contact Student Services if your time frame requires adjustment.

Note: It is a good idea to keep a record of the customizations that you apply to your system. In some cases PowerSchool functionality is changed with an upgrade that can cause a customization to not function properly or not function at all. Changes to stock PowerSchool pages should be reflected in customized versions.

Time Frame	Thursday – 2/20/2014		Friday – 2/21/2014
